ABOUT ME

👋 Hi! I'm Cesar, a Web3XR developer exploring the convergence of Web3 and mixed reality (XR) to create more immersive, intuitive, and accessible web experiences.

I have nearly 7 years of experience as a full-stack developer, with the last 3 focused on the blockchain space. I've worked with Solana, IOTA, EVM chains like Polygon, and built dApps using React, Next.js, Svelte/SvelteKit, and Node.js. On the back end, I've used Express and SQL-based databases to build scalable and reliable systems.

Always learning, always shipping. 🚀

SKILLS

Typescript · Next.js · Node.js · Web3

IOTA · Solana · EVM · SQL

Teamwork · Problem Solving · Leadership

Critical Thinking · Discipline

LANGUAGES

Spanish ▓▓▓▓▓▓▓ 100 %
English ▓▓▓▓▓ 75 %

EDUCATION

Master on Industria 4.0
UNIR - Universidad
Internacional de la Rioja

2021 - 2022

Bachelor's Degree in Computer Engineering
UAH - Univesidad Alcalá

2014 - 2019

EXPERIENCE

Sr Web3 Developer
Boxfish Studio SL

2022 - 2025

I lead the development of applications using React (Next.js) and Svelte (SvelteKit) on the front end, and Node.js on the back end, as well as managing APIs and databases. I have taken on new responsibilities in team management, developer mentoring, and technical decision-making.
I contribute to the definition of architectures and development standards in blockchain projects with IOTA, Shimmer, and Polygon.

FullStack Web Dev
Mnemo Consulting

2020 - 2021

I took ownership of the entire web application development process, from the initial requirements gathering to the final deployment.

Jr FullStack Web Dev
Addentra Internet

2018 - 2020

Worked as a junior full-stack developer using Angular 8 for the front-end and Node.js with MySQL on the back-end. Applied SOLID principles and worked in a Scrum-based agile environment.
